

**Toledo Molding & Die, Inc.
Obsolescence Claim Form**

Supplier: Please complete this form if you've received a Final Release from TMD and have a part termination claim as a result. Submit the completed form to your Plant Analyst. Email is recommended if you wish to retain a record of your submission. Please read "Filing Rules" in sheet 2. Shaded areas are TMD use only. Attach additional sheets if required.

SUPPLIER OBSOLESCENCE CLAIM FILING RULES

- 1 Any Claims from the Supplier that are less than **\$500 in value** will not be accepted. These claims will be rejected and returned to the Supplier.
- 2 Claims cannot be submitted for parts which have not achieved **Part Sample Warrant (PSW) approval**. (Note: pre-PSW parts, tooling, fixtures and other project-related claims should be referred to your Buyer.)
- 3 The Supplier has **15 calendar days** from the date of the Final Release notification to submit the Obsolescence Claim Form. The date the Final Release notification is issued starts the clock.
- 4 To be valid, quantities claimed must be supported by **fabricated or raw material authorization** reflected in TMD's releases to its Suppliers. A Supplier may claim only two weeks' Fab and four weeks' raw for a total of six weeks' authorization, unless the Supplier negotiated a deviation with the Buyer when the Purchase Order was generated.
- 5 The Supplier cannot dispose of any of the material claimed until the Supplier receives the TMD **authorization** from the TMD Analyst.
- 6 All parts and/or materials must be in (and remain in) a **condition which complies with Customer specifications** until the authorization is issued.
- 7 It is the Supplier's responsibility to **retain evidence of claim submission and supporting documentation**. It is suggested that the Supplier submit the claim package via email, to assure dated evidence.
- 8 Suppliers must contact their TMD Buyer to dispute rejected claims. It is not the responsibility of Plant MP&L to resolve disputes.
